Education

B.Sc. in Software Engineering – CGPA: 3.76 , Addis Ababa Science and Technology University 🔗	09/2020 – 07/2024
• Relevant Coursework: Data Structures & Algorithms, Database Systems, Operating Systems, Addis Ababa, Ethiopia Networking, Object-Oriented Programming, System Analysis & Modeling	Addis Ababa, Ethiopia
Backed by Google , Coding Academy, Africa To Silicon Valley (A2SV) 🔗	02/2024 – 09/2025
• Solved 600+ algorithmic challenges on LeetCode and Codeforces under competitive programming time limits, demonstrating advanced skills in data structures and algorithms.	Addis Ababa, Ethiopia
• Developed 5+ web applications using Next.js with Redux Toolkit (RTK), applying Clean Architecture, Singleton, Test-Driven Development, and Separation of Concerns for scalability and maintainability.	

Professional Experience

Full-Stack Software Developer , Red Cloud ICT Solutions PLC 🔗	07/2026
• Develop scalable full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB, focusing on performance, responsiveness, and maintainable architecture.	Addis Ababa, Ethiopia
• Design and implement RESTful APIs, backend services, and database solutions while applying software engineering best practices to deliver reliable and efficient products.	
• Collaborate with cross-functional Agile teams through code reviews, testing, debugging, and Git-based workflows to transform business requirements into high-quality software solutions.	
Software Engineer Intern , Eskalate LLC 🔗	07/2025 – 09/2025
• Designed and implemented a Job Listing App using React.js and TypeScript with Jest and Cypress Addis Ababa, Ethiopia tests, improving job search performance for 100+ active users.	Addis Ababa, Ethiopia
• Collaborated in a 7-member team to develop an Application Tracker for A2SV, supporting real-time tracking of 200+ applications.	
• Integrated Redux for state management and optimized frontend performance, reducing average page load time by 30%.	
React Mentor , Google Developer Groups (GDG), at AASTU 🔗	2024 – 2025
• Guided 70+ students in React.js, increasing project completion rates and coding proficiency.	Addis Ababa, Ethiopia
• Mentored 8 students personally, achieving a 90% project success rate.	
• Orchestrated hackathon training sessions, improving collaboration and outcomes; one mentored team won 1st place in a hackathon.	

Projects

A2SV APPLICATION TRACKER 🔗 , Front End Developer	04/2024 – 07/2025
• Developed a responsive frontend platform for managing and tracking 500+ applications in real- time.	
• Integrated RESTful APIs for submission, status updates, and profile management, improving workflow efficiency by 30%.	
• Designed interactive dashboards and forms, reducing user errors by 30% and increasing platform adoption among 200+ users.	
• Tech Stack: React.js, CSS/SCSS, RESTful API integration, Agile methodology	
CamLink – Hackathon Project 🔗 , Lead React Developer	05/2023 – 07/2023
• Architected a multi-camera live streaming platform using WebRTC, enabling 10+ simultaneous live feeds.	
• Optimized stream reliability by reducing downtime by 25%, improving user experience for 30+ active participants.	
• Implemented real-time lecture display and interactive UI components, improving accessibility for 100+ users.	
• Tech Stack: React.js, Redux, Django, JavaScript, GitHub	

Skills

Programming Languages

Python, JavaScript, TypeScript, Java, C++, PHP, Dart

Databases

MySQL, MongoDB, SQLite

Tools & Platforms

Docker, Git, Linux, GitHub Actions

Frameworks/Libraries

React.js, Next.js, Flutter, Nodejs, Express.Js

Achievements

GDSC Hackathon – 2nd Place Prize [🔗](#), Google Developer Group
Outperformed 8+ teams in Web & Mobile App development.

Presidential Award, AASTU (2023/24) [🔗](#), President of AASTU
Ranked in the top 1% of students.

Technical Coach, She Codes Hackathon
Mentored 7 teams across 41 universities; 2 teams secured first place.
