

Anteneh Getnet Tirfu

Software Engineer

✉ antenehgetnet83@gmail.com ☎ +251974528148 📍 Addis Ababa, Ethiopia 🔗 LinkedIn 🐙 GitHub

Education

- B.Sc. in Software Engineering – CGPA: 3.72**, Addis Ababa Science and Technology University 📄 04/2022 – 05/2026
Addis Ababa, Ethiopia
- Relevant Coursework: Data Structures & Algorithms, Database Systems, Operating Systems, Networking, Object-Oriented Programming, System Analysis & Modeling
- Coding Academy, Africa To Silicon Valley (A2SV) - Backed by Google** 📄 02/2024 – 09/2025
Addis Ababa, Ethiopia
- Solved 400+ algorithmic challenges on LeetCode and Codeforces under competitive programming time limits, demonstrating advanced skills in data structures and algorithms.
 - Developed 5+ web applications using Next.js with Redux Toolkit (RTK), applying Clean Architecture, Singleton, Test-Driven Development, and Separation of Concerns for scalability and maintainability.

Professional Experience

- Software Engineer Intern, Eskalate LLC** 📄 07/2025 – 09/2025
Addis Ababa, Ethiopia
- Designed and implemented a Job Listing App using React.js and TypeScript with Jest and Cypress tests, improving job search performance for 100+ active users.
 - Collaborated in a 7-member team to develop an Application Tracker for A2SV, supporting real-time tracking of 200+ applications.
 - Integrated Redux for state management and optimized frontend performance, reducing average page load time by 30%.
- React Mentor, Google Developer Groups (GDG), at AASTU** 📄 2024 – 2025
Addis Ababa, Ethiopia
- Guided 70+ students in React.js, increasing project completion rates and coding proficiency.
 - Mentored 8 students personally, achieving a 90% project success rate.
 - Orchestrated hackathon training sessions, improving collaboration and outcomes; one mentored team won 1st place in a hackathon.

Projects

- CamLink – Hackathon Project, Lead React Developer** 📄 05/2023 – 07/2023
- Architected a multi-camera live streaming platform using WebRTC, enabling 10+ simultaneous live feeds.
 - Optimized stream reliability by reducing downtime by 25%, improving user experience for 30+ active participants.
 - Implemented real-time lecture display and interactive UI components, improving accessibility for 100+ users.
 - Tech Stack: React.js, Redux, Django, JavaScript, GitHub
- A2SV APPLICATION TRACKER, Front End Developer** 📄 04/2024 – 07/2025
- Developed a responsive frontend platform for managing and tracking 500+ applications in real-time.
 - Integrated RESTful APIs for submission, status updates, and profile management, improving workflow efficiency by 40%.
 - Designed interactive dashboards and forms, reducing user errors by 30% and increasing platform adoption among 200+ users.
 - Tech Stack: React.js, CSS/SCSS, RESTful API integration, Agile methodology

Skills

Programming Languages

Python, JavaScript, TypeScript, Java, C++, PHP, C++, Dart

Databases

MySQL, MongoDB, SQLite

Tools & Platforms

Docker, Git, Linux, GitHub Actions

Frameworks/Libraries

React.js, Next.js, Flutter, Nodejs, ExpressJs

Achievements

GDSC Hackathon – 2nd Place Prize (2023), Google Developer Group 📄
Outperformed 48+ teams in Web & Mobile App development.

Presidential Award, AASTU (2024/25), President of AASTU 📄
Ranked in the top 1% of students.

Technical Coach, She Codes Hackathon 📄
Mentored 47 teams across 14 universities; 2 teams secured first place.
